Google for Education

The G Suite for Education (formerly called Google Apps for Education) core services are the heart of Google's educational offering to schools. These apps are designed to provide educators with powerful solutions that are affordable, secure and easy to use.

Google is helping teachers and students everywhere utilize technology to improve learning and teach effectively. More than 50 million students, teachers and administrators in almost every country in the world rely on G Suite to learn and work together.

Global Statistics on Google for Education

students love learning with Google

Tavish
(5th Grade Student)
"Google Apps help education, they help people collaborate, think, and help people from anywhere, it allows teachers to check whatever the students are doing. Google apps are amazing in many ways."

Juliana
(5th Grade Student)
"Google Apps help people work on projects together, communicate, collaborate, and helps their creativity shine."

Tegan
(5th Grade Student)
"Google Apps are very helpful and allow you to work with long-distance friends and family by simply putting in their email. It has revolutionized the world of online work."

Loren
(5th Grade Student)
"Google Docs is a great way to collaborate. It is so helpful to people that want to learn and work together when they are not currently in the same location."

Milani
(5th Grade Student)
"I love Google Apps because my classmates and teachers can use critical thinking, communication, creativity, and collaboration on any assignment they want."

Avi
(5th Grade Student)
"Google Apps for education are changing the ways that schools are teaching and using technology, and it is helping kids share their thoughts together on Docs."
